VERDICT

PASS

THE THESIS IN ONE LINE

AVX MLCC is small; semiconductor packages, ceramics and the KDDI stake drive the stock

▲ BULL — why it could be worth it

- KDDI stake sell-down funds up to ¥500bn buyback [ATTRIBUTED]
- FY3/27 guide raised (pre-tax ¥200bn) [ATTRIBUTED]
- Only -6% from high: defensive [FACT]

▼ BEAR — why it might not

- OP margin 4.6% (FY3/26) [FACT]
- Consensus TP ¥3,585 below price [ATTRIBUTED]
- No MLCC expansion disclosed [ATTRIBUTED]

THE SINGLE DRIVER TO WATCH

KDDI monetisation and packaging margins.

VALUATION

Fwd P/E 28.9x; EV/EBITDA 16.6x.

ENTRY / LEVELS
